PREPARE TO HAVE THE LIGHT BULBS TURNED ON!

Longevity, Cognition,
Neural and Fascial
Connections!

This AMAZING seminar of outstanding revelations that will blow your mind!

Dan Murphy, who always has his finger on the pulse of what's new in the field of chiropractic and nutrition, brings unique and recent revelations about longevity, nutrition and optimal protocols for brain injury to this seminar! Stephan Ediss brings mind-blowing connections to the inner workings of "Fascia, the Central Integrative System and the Vagus Nerve". Fascia "holds us together", but what about the discoveries Dr. Ediss reveals about the connections of fascia to proprioception and nociception, sensing pressure, temperature and movement?

Dr. Dan speaks Friday and Saturday morning; panel discussions follow where Drs. Dan & Steve will then troubleshoot Q's and cases from science and technique viewpoints! Dr. Steve continues through Saturday & Sunday with practical applications & adjustments.
