Dan Murphy is back for a full weekend seminar on adapting to our changing environment! Challenging times have presented reasons for challenging our status quo protocols - We need to be on top of the latest research on chiropractic nutrition to deal with the enormous amount of information we get exposed to on a daily basis.

The best way to do that is to listen to the master: Dr. Dan has always had his finger on the pulse for recent research in chiropractic, recent research in nutrition, and recent research that affects both!

What's going on? What's changed? What works? What doesn't?

The one and only Dan Murphy, DC is back for his first 12-hour Colorado Nutri-West seminar in two years!

Co-sponsored by the CCA.
This seminar is LIVE ONLY and is not Telecast
